General Disclosure

Under the Federal Community Reinvestment Act (CRA), the Federal Deposit Insurance Corporation (FDIC) evaluates our record of helping meet the credit needs of the communities we serve consistent with safe and sound operations. The FDIC also takes this record into account when deciding on certain applications submitted by us.

Your involvement is encouraged.

Southern First Bank is pleased to provide information for public inspection under the Community Reinvestment Act (CRA). Interested parties can review the data provided and produce hard copy of documents as needed. Southern First will provide hard copies of these documents upon request at no expense. If you have questions, please contact Southern First at compliance@southernfirst.com.

Home Mortgage Disclosure Act (HMDA) - Notice

The Home Mortgage Disclosure Act (HMDA) data about our residential mortgage lending is online for review. The data shows geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials.

Southern First Bank's HMDA Disclosure Statement may be obtained on the Consumer Financial Protection Bureau's website at www.consumerfinance.gov/hmda.

HMDA data for many other financial institutions are also available at this website.

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.

11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

INSTITUTION RATING

INSTITUTION’S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment areas, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

PERFORMANCE LEVELS	PERFORMANCE TESTS		
	Lending Test*	Investment Test	Service Test
Outstanding			
High Satisfactory		X	X
Low Satisfactory	X		
Needs to Improve			
Substantial Noncompliance			
* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.			

The Lending Test is rated Low Satisfactory.

- Lending levels reflect good responsiveness to assessment area credit needs.
- An adequate percentage of loans is made in the institution’s assessment areas.
- The geographic distribution of loans reflects adequate penetration throughout the assessment areas.
- The distribution of borrowers reflects, given the product lines offered by the institution, poor penetration amount retail customers of different income levels and business customers of different sizes.
- The institution has made a relatively high level of community development loans.
- The institution uses innovative and/or flexible lending practices in order to serve assessment area credit needs.

The Investment Test is rated High Satisfactory.

- The institution has a significant level of qualified community development investments and donations, occasionally in a leadership position, particularly those that are not routinely provided by private investors.
- The institution exhibits good responsiveness to credit and community development needs.
- The institution rarely uses complex investments to support community development initiatives.

The Service Test is rated High Satisfactory.

- Delivery systems are reasonably accessible to essentially all portions of the assessment areas.
- The institution did not open or close branches during the review period.
- Services and business hours do not vary in a way that inconveniences certain portions of the assessment areas, particularly in low- and moderate-income geographies and/or individuals.
- The institution is a leader in providing community development services.

DESCRIPTION OF INSTITUTION

Background

Southern First Bank is a \$4.1 billion state-chartered community bank headquartered in Greenville, Greenville County, South Carolina (SC). The institution is wholly owned by Southern First Bancshares, Incorporated, a one-bank holding company also located in Greenville, SC. The institution received a “Needs to Improve” rating at the previous FDIC Community Reinvestment Act (CRA) evaluation, dated March 29, 2021, based on Interagency Large Institution Examination Procedures.

Operations

Southern First Bank operates 12 full-service branches in SC, Georgia (GA) and North Carolina (NC). Refer to the Description of Assessment Areas for a summary of the bank’s branches in each assessment area. Since the previous evaluation, the institution did not open or close any branches. However, the bank did open one loan production office in Greenville, SC. Further, Southern First Bank relocated its main office on May 11, 2022, to a location that was a nominal distance from its prior main office, on the same street and within the same census tract. The relocation resulted in enhanced conveniences to customers. The institution has not engaged in any mergers or acquisitions.

Southern First Bank’s primary business focus is residential and commercial lending. The institution offers a wide variety of credit products, including commercial and consumer real estate, agriculture/farm, and consumer installment loans. The institution provides a variety of deposit services including checking, savings, money market, certificates of deposit, and trust accounts. Alternative banking services include internet and mobile banking, electronic bill pay, automated teller machines (ATMs), and interactive teller machine (ITMs). Southern First Bank also offers no-cost personal and senior checking account, which require a low balance to open but have no minimum balance requirements or service charges.

Ability and Capacity

As of December 31, 2023, Consolidated Reports of Condition and Income, Southern First Bank had total assets of \$4.1 billion, total deposits of \$3.4 billion, and total loans of \$3.6 billion. Total loans represent 89.0 percent of total assets. As shown in the following table, the largest segments of the loan portfolio are commercial and 1-4 family residential loans at 45.3 percent and 42.7 percent, respectively.

There are no financial or legal impediments, other than legal lending limits, to prevent the institution from meeting the credit needs of its assessment areas.

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance will be evaluated. The FDIC evaluates the bank's CRA performance based on its activity within the defined assessment areas. Southern First Bank designated seven assessment areas throughout its three rated areas of South Carolina, North Carolina, and Georgia. By rated area, the assessment areas include Greenville-Anderson-Mauldin, SC Metropolitan Statistical Area (MSA) (Greenville MSA), Charleston-North Charleston, SC MSA (Charleston MSA), Columbia, SC MSA (Columbia MSA), Greensboro-High Point, NC (Greensboro MSA), Raleigh, NC (Raleigh MSA), Charlotte-Concord-Gastonia, NC-SC (Charlotte MSA), and Atlanta-Sandy Springs-Roswell, GA (Atlanta MSA).

Assessment area delineations are based on the 2015 American Community Survey (ACS) Census data. In 2022, the Federal Financial Interagency Examination Council (FFIEC) released updates to the MSA and Metropolitan Divisions, states, counties, census tracts, and income level indicators based on information collected during the 2020 United States (U.S.) Census. Consequently, the number of census tracts increased, and income classifications changed, which impacted the bank's assessment areas. A detailed description of each full-scope assessment area, including demographic and economic data, is contained within the comments for each assessment area. The following table provides general information for the assessment areas.

Description of Assessment Areas

SCOPE OF EVALUATION

General Information

In evaluating Southern First Bank’s CRA performance, examiners used the Interagency Large Institution Examination Procedures, which consist of three tests: Lending, Investment, and Services as described in the Appendices. The evaluation period is from March 29, 2021 to the current evaluation dated April 15, 2024. Refer to the Appendices for additional details regarding the evaluation criteria.

Examiners evaluated the bank’s lending data, deposit activity, and number of branches during the loan review analysis period to determine the weighting of the rated areas in arriving at the overall conclusions. A significant majority of the bank’s lending, deposit activity, and branches are in South Carolina. Consequently, examiners gave primary weight in assigning the overall rating and conclusions to the performance in South Carolina and secondary equal weight to North Carolina and Georgia. The following table details the bank’s loans, deposits, assessment areas, and branches by assessment area and rated area.

Activities Reviewed

The CRA regulation requires a review of lending performance with respect to small business, home mortgage, and small farm lending, if significant. Based on the bank's business strategy, loan portfolio mix, and number and dollar volume of loans originated during the evaluation period, examiners determined the bank's major product lines are home mortgage and small business loans. Due to the nominal number and dollar volume of small farm loans, these were excluded from the review. This evaluation includes a review of the universe of loans reported pursuant to the reporting requirements of the Home Mortgage Disclosure Act (HMDA) and the CRA for 2021, 2022, and 2023, as the bank is subject to such requirements. The following table details the universe of the products reviewed.

For the Lending Test's Geographic Distribution and Borrower Profile performance factors, lending data for 2022 is presented, as this is the most recent year for which aggregate data is available for comparison purposes. However, examiners reviewed lending performance for 2021, 2022, and 2023 with significant performance variances among years discussed, if applicable. The Geographic Distribution and Borrower Profile discussions focus only on loans Southern First Bank originated and purchased within the assessment areas. Further, the bank's 2021 loan data was compared to the

2015 ACS Census data. The bank's 2022 and 2023 loan data were compared to the 2020 U.S. Census data and the 2021 and 2022 performance were compared to aggregate HMDA and CRA data, as well as business demographic data from Dun and Bradstreet (D&B). Finally, given the volume of loans originated during this evaluation, more weight was given to home mortgage lending.

This evaluation includes a review of all community development loans, qualified investments, and community development services identified by bank management and qualified by examiners. Specifically, community development loans and services from March 29, 2021 through April 15, 2024, were considered, unless otherwise noted. Qualified investments include new investments, as well as donations, and qualified investments from the prior evaluation that were still outstanding as of the current evaluation date.

For the Service Test, this evaluation includes a review of accessibility of delivery systems for providing retail banking services, and reasonableness of business hours, services, and alternative delivery systems. Since the bank did not open or close any branches during the evaluation period, this factor will not be further discussed. This review was attentive on services targeted toward small businesses and low- and moderate-income individuals within the assessment areas.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

The Lending Test rating for this institution is Low Satisfactory. Lending levels reflect good responsiveness to the assessment areas' credit needs. Southern First Bank made an adequate percentage of loans in the institution's assessment areas. The geographic distribution reflects adequate penetration throughout the assessment areas, and the distribution of borrowers reflects poor penetration among borrowers of different incomes and businesses of different sizes. In addition, the bank uses innovative and/or flexible lending practices and made a relatively high level of community development loans. Conclusions for each rated area are consistent with overall performance.

Lending Activity

Lending levels reflect good responsiveness to the assessment areas' credit needs. Consistent performance in the rated areas support this conclusion. Refer to each respective rated area analysis for details.

Assessment Area Concentration

Southern First Bank originated an adequate level of home mortgage and small business loans within the assessment areas. The following table details lending inside and outside of the institution-wide assessment area.

Geographic Distribution

The geographic distribution of loans reflects adequate penetration throughout the rated areas. Consistent performance in the rated areas supports this conclusion.

Borrower Profile

The distribution of borrowers reflects poor penetration among individuals of different income levels and businesses of different sizes. Consistent performance in the rated areas supports this conclusion.

Innovative or Flexible Lending Practices

Southern First Bank uses innovative and/or flexible lending practices in order to serve its assessment areas credit needs. During the evaluation period, the bank extended 563 loans totaling approximately \$225.4 million through innovative and/or flexible lending programs within the assessment areas. Excluding the 853 Small Business Administration (SBA) Paycheck Protection Program (PPP) loans, totaling \$97.5 million, originated at the previous exam, lending activity for this evaluation represents a decrease of 11.3 percent, by number of loans, but represents a significant increase of 52.7 percent by dollar volume since the previous exam.

The bank offers various mortgage loan programs tailored to assist low- and moderate-income individuals, as well as first-time homebuyers in pursuing or maintaining home ownership. The bank also offers programs to assist in providing funding to small businesses. The following table

details the bank’s innovative and flexible lending programs with originations from March 29, 2021, through April 15, 2024.

<i>*This program started in 2022.</i>										

Below is a description of the innovative and flexible lending programs highlighting the flexible and/or innovative underwriting standards used in the origination of loans to low- and moderate-income individuals and to businesses of different sizes.

- **Federal Housing Administration (FHA) Home Loan Program**– The program provides low down payments, down payment assistance, low closing costs, and flexible credit qualification standards.
- **Veterans Administration (VA) Home Loan Program**– The program provides low down payment options, higher debt-to-income ratios, and flexible sources of funding for closing costs.
- **Southern First Bank 1st Time Homebuyer** – The program offers 100.0 percent financing opportunities, a 30-year fixed rate amortization, and specifically targets first-time homebuyers.
- **Southern First Bank Dream Mortgage-Special Purpose Credit Program (SPCP)** – This in-house program is designed to expand access to credit for residents of majority minority and low-and moderate-income census tracts. The product provides the opportunity for 100.0 percent financing, a higher debt-to-income ratio, lower credit score, no mortgage insurance premiums, and allows applicants to use rental history rather than trade lines from a credit report.

- **United States Department of Agriculture (USDA) Home Loan Program** – The program offers 100.0 percent financing, reduced mortgage insurance premiums, and other financing flexibility.
- **Down Payment Assistance Programs** – These programs consist of partnerships with various local non-profit organizations throughout the bank’s footprint to offer affordable housing assistance to low- and moderate-income borrowers. The bank has partnerships with the Federal Home Loan Bank (FHLB), SC State Housing, and the Atlanta Neighborhood Development Partnership. These non-profit organizations offer various assistance to low- and moderate-income borrowers, including down payment and closing cost assistance.
- **South Carolina Local Heroes Program** – This program consists of a partnership with a local non-profit organization that assists “local heroes” with mortgage lending fees and provides realtor commission rebates to help minimize the costs of obtaining home ownership.
- **North Carolina Rural Center Loan Participation Program (LPP)** – This is a uniquely tailored small-business lending program that works with local lenders across NC to help make more loans in the communities and region. By helping to reduce the risk-exposure of partner lenders, LPP allows more NC businesses to have access to capital that might otherwise be out of reach.
- **Habitat for Humanity** – The organization offers affordable loan products and down payment assistance, closing cost assistance, and tax credits. Southern First Bank funds habitat mortgage loans made to low- and moderate-income borrowers within the Greenville and Raleigh MSA assessment areas.
- **Small Business Administration (SBA) 504 Loans** – This program provides small business loans to business entrepreneurs who do not meet conventional underwriting standards.
- **State Small Business Credit Initiative** – This program, through loan participations, enables small businesses in South Carolina to obtain short and long-term financing to help grow and expand businesses, creating and retaining employment opportunities.

The bank offers these loan programs at a bank-wide level, as appropriate. Therefore, the Lending Test conclusions for each rated area and assessment area omit further discussion of innovative and/or flexible lending practices.

Community Development Loans

Southern First Bank made a relatively high level of community development loans. The bank originated 87 community development loans totaling \$261.4 million during the evaluation period, which represents a significant increase by number and dollar volume of community development lending activity when compared to the prior evaluation. Based on the dollar volume of loans, the current level of activity represents 7.8 percent of average total assets and 8.8 percent of average total loans. The current level of activity significantly exceeds previous evaluation activity of 1.8 percent of total assets and 2.0 percent of total loans. Performance is consistent throughout the rated areas.

Southern First Bank’s community development lending provides a source of capital that impacts community and economic needs. Since the previous evaluation, the bank has identified and responded to community needs by financing affordable housing, community programs, and meeting business economic development needs and revitalization and stabilization efforts within its

assessment areas. The following tables detail community development lending by activity year, type, and rated area. Refer to the Community Development Loans section of each assessment area for further details.

INVESTMENT TEST

The Investment Test rating for this institution is High Satisfactory. The institution has a significant level of qualified community development investments and donations, although occasionally in a leadership position, particularly those that are not routinely provided by private investors. The institution exhibits good responsiveness to credit and community development needs. The institution rarely uses innovative and/or complex investments to support community development initiatives. The institution’s overall performance was consistent among the rated areas.

Investment and Grant Activity

Southern First Bank has a significant level of qualified community development investments and donations. During the evaluation period, the bank made and maintained 392 investments and donations totaling \$26.9 million compared to 108 investments and donations totaling \$8.9 million at the previous evaluation. Based on dollar volume, the current level of activity represents 0.7 percent of total assets and 20.0 percent of total securities. The current level of activity exceeds previous evaluation activity of 0.4 percent of total assets and 9.4 percent of total securities. Three investments benefitted the broader regional area, including the rated areas; therefore, it was included in the overall qualified investment activity.

Prior-period investments account for \$7.1 million or 26.5 percent of total qualified investments. Southern First Bank implemented its community development investment objectives through primarily mortgage-backed securities (MBS). The majority of investment securities and donations benefitted South Carolina. Additionally, Southern First Bank provided 54 instances totaling \$46,300 for in-kind donations of rent-free space to 24 organizations throughout all rated areas. The following tables detail the bank's qualified investments by community development purpose, year, and rated area.

The following qualified investments benefitted the greater regional area, which included the rated areas.

- The bank holds a prior period investment in an MBS, purchased in 2016, with a current book value of \$76,484. The MBS is comprised of mortgage loans to low- and moderate-income individuals located throughout the South Carolina and North Carolina rated areas, supporting affordable housing.
- The bank holds a \$250,000 Certificate of Deposit for a low-income credit union with offices in South Carolina and North Carolina, supporting economic development.
- The bank invested \$1.0 million in a Rural Business Investment Company that provides loans to small businesses, supporting economic development.

Responsiveness to Credit and Community Development Needs

Southern First Bank exhibits good responsiveness to credit and community development needs throughout the rated areas and assessment areas served. Qualified investments made during the evaluation period specifically responded to the assessment areas' community development needs and opportunities within affordable housing, community services, revitalization and/or stabilization, and economic development. MBS comprise the majority of the bank's qualified investments. The bank made new qualified investments in community development financial institutions (CDFI) that provide both small business loans and affordable housing loans, as well as minority-owned depository institutions. The majority of the grants and donations, by number and dollar amounts, benefitted community service organizations in the rated areas, primarily focused on low- and moderate-income individuals and youth from low- and moderate- income families. The overall level of investment and donation activity is a significant increase since last evaluation. This responsiveness aligns to the needs identified by performance context and community contacts.

Performance in the criterion is generally consistent throughout all assessment areas. Therefore, the Investment Test conclusions for each rated area and assessment area omit further discussion of responsiveness to credit and community development needs.

Community Development Initiatives

Southern First Bank rarely uses innovative and/or complex investments to support community development initiatives. MBS and CDFI investments make up the majority of the bank's new qualified investments since the prior evaluation. These investments assist in providing economic development and to sustain affordable housing in the assessment areas but are not innovative. The MBS were structured specifically to benefit the assessment areas, adding some complexity.

Performance for this criterion is consistent in all rated areas. Therefore, the Investment Test conclusions for each rated area and assessment area omit further discussion of community development initiatives.

SERVICE TEST

The Service Test rating for Southern First Bank is High Satisfactory. Delivery systems are reasonably accessible to essentially all portions of the assessment areas. Services and business hours do not vary in a way that inconveniences certain portions of the assessment areas, particularly low- and moderate-income geographies or individuals. In addition, Southern First Bank is a leader in providing community development services within its assessment areas. The institution's overall performance is consistent with the conclusions for the rated areas.

Accessibility of Delivery Systems

Southern First Bank's delivery systems are reasonably accessible to essentially all portions of the assessment areas. The bank operates 12 branches in the assessment areas. As a result of the 2020 Census data, the income classification of one branch changed in Georgia. The classification changed from upper-income to unknown. The branches are not located in low- or moderate-income

tracts. Of note, 27.1 percent of the population resides in those census tracts. Refer to rated areas' conclusion sections for additional details regarding branch distribution.

Southern First Bank operates five ATMs and three ITMs locations, which are all located in South Carolina. Southern First Bank also has one loan production office in South Carolina that opened in September 2023. The following table details the census tracts, population, branches, and ATMs/ITMs by geographic income level.

Branch Distribution by Geography Income Level

In addition to the branch and ATM network, Southern First Bank offers alternative delivery systems to expand access to retail banking services to all individuals. This includes operation of its website, www.southernfirst.com, which contains information about products, services, and other information about the bank. The bank offers telephone banking with bi-lingual (English and Spanish) options, as well as online, and mobile banking, which gives customers access to connect consumers and businesses to their accounts 24 hours a day to perform various transactions. These systems provide the ability to check account balances, view transactions, transfer funds, pay bills, make deposits, as well as locate branches, and ATMs. There is no additional cost for these banking services, including foreign ATM fees.

Overall, these alternative delivery systems enhance the accessibility of the bank's financial services. Performance in this criterion is generally consistent throughout each rated area and related assessment areas. Therefore, the Service Test conclusions for each rated area or full-scope review assessment area omit further discussion of this performance.

Reasonableness of Business Hours and Services

Services and business hours do not vary in a way that inconveniences certain portions of the assessment areas, particularly low- and moderate-income geographies and/or individuals. Southern First Bank offers a wide range of products and services designed to meet the banking needs of its assessment areas. Consumer and commercial loan and deposit products include various affordable home mortgage programs, government loan sponsored programs for home mortgage borrowers and small businesses, low-cost deposit products including a free checking account for consumers, and affordable deposit products for small businesses and nonprofit organizations. Additionally, branch drive-thru hours are similar to lobby hours. Performance in this criterion is consistent without notable differences among each rated area and related assessment areas. Therefore, the Service Test

conclusions for each rated area and assessment areas omit further discussion of business hours and services.

Community Development Services

Southern First Bank is a leader in providing community development services within its assessment areas. Employees used their financial and banking expertise to provide 285 qualified community development services for 3,600 hours to 72 community development organizations. This level represents a significant increase in number of services from the previous CRA evaluation, where 39 services were provided. These services include bank personnel delivering financial services or technical assistance to various organizations that benefit each of the bank’s assessment areas. The type and level of assistance provided varied with each employee and organization but generally is ongoing for multiple years, as some hold positions on the Board or committees of the organizations.

Of the 285 community development services, community services accounted for 87.7 percent, affordable housing accounted for 7.7 percent, economic development accounted for 3.9 percent, and revitalization/stabilization accounted for 0.7 percent of the total community development services provided during the evaluation. Given the time period covered by this evaluation, the total services equate to approximately 7.8 community development services and 99.8 community development service hours per branch per year. The following tables detail community development service activities by purpose and rated area. Refer to the discussions of Community Development Services within each assessment area analysis for additional details and examples.

SOUTH CAROLINA

CRA RATING FOR SOUTH CAROLINA: SATISFACTORY

The Lending Test is rated: Low Satisfactory

The Investment Test is rated: High Satisfactory

The Service Test is rated: High Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN SOUTH CAROLINA

The evaluation of the South Carolina performance considered the operations of Southern First Bank in three assessment areas, which are detailed in the Description of Assessment Areas. The bank operates eight, or 66.7 percent, of its total branch offices in South Carolina. South Carolina accounts for 79.3 percent of the bank-wide deposits. Overall, South Carolina ranks 7th in the state in deposit market share at 4.3 percent. Competitor institutions in the South Carolina assessment areas include Bank of America, N.A., Wells Fargo, N.A., and Truist Bank.

SCOPE OF EVALUATION – SOUTH CAROLINA

Based on the number of loans and branches, as well as dollar volume of deposits, examiners conducted full-scope reviews of the bank's performance in the Greenville MSA and Charleston MSA assessment areas; the Columbia MSA assessment area received a limited scope review.

CONCLUSIONS ON PERFORMANCE CRITERIA IN SOUTH CAROLINA

LENDING TEST

The Lending Test rating for South Carolina is Low Satisfactory. Lending levels reflect good responsiveness to the assessment areas' credit needs. The geographic distribution reflects adequate penetration throughout assessment areas. The distribution of borrowers reflects poor penetration to retail customers of different income levels and businesses of different sizes. In addition, the bank made a relatively high level of community development loans. Performance is consistent among the assessment areas within the rated area.

Lending Activity

Lending levels reflect good responsiveness to the assessment areas' credit needs. During the review period, Southern First Bank originated 3,465 home mortgage loans totaling \$1.3 billion and 1,430 small business loans totaling \$369.3 million. Limited lending opportunities, based on the relatively low percentages of owner-occupied housing units and strong competition in the low- and moderate-income census tracts in the assessment areas, were factors considered in the analysis of the bank's performance, as applicable. Southern First Bank operates in highly competitive markets for both home mortgages and small business lending.

Performance in this criterion is consistent throughout each assessment area. Therefore, the Lending Test conclusions for each assessment area omit further discussion of this performance.

Geographic Distribution

The overall geographic distribution of home mortgage and small business loans is adequate. Performance is consistent for the assessment areas in the rated area.

Borrower Profile

The overall borrower distribution of home mortgage and small business loans is poor. Performance in the Greenville MSA and Charleston MSA assessment areas is consistent with the rated area performance. Performance in the Columbia MSA assessment area is above the rated area performance, but did not impact the rated area rating.

Community Development Loans

Southern First Bank has a relatively high level of community development loans in South Carolina. During this evaluation period, the bank originated 44 community development loans totaling \$120.4 million. This performance represents 50.6 percent, by number, and 46.0 percent, by dollar volume, of total bank-wide community development loans. Community development lending has increased significantly since the prior evaluation, when 15 community development loans totaling \$33.1 million were made. Additionally, two loans totaling \$3.1 million were originated outside of the assessment areas but within the broader statewide area. Since the bank has been responsive to community development needs and opportunities inside its assessment areas, examiners gave consideration for broader statewide lending. Performance is consistent throughout the assessment areas, with the exception of the Columbia MSA assessment area. The following table illustrates the community development loans by assessment area within this rated area.

Below are the two statewide activities in South Carolina.

- A \$1.7 million loan to construct a new restaurant located in a moderate-income census tract that will attract new businesses and residents to the geography, promoting revitalization or stabilization efforts in the area.
- A \$1.4 million loan to a manufacturing company for working capital that supports day-to-day operations. The company’s operations support growth within the moderate-income census tract by attracting new businesses and residents to the community, promoting

revitalization or stabilization efforts in the area.

INVESTMENT TEST

The Investment Test performance is rated High Satisfactory. The institution has a significant level of qualified community development investments and donations, occasionally in a leadership position, particularly those that are not routinely provided by private investors. Consistent performance in all assessment areas supports the rated area conclusions.

Investment and Grant Activity

Southern First Bank has a significant level of qualified community development investments and donations in South Carolina. During the evaluation period, the bank made or maintained 288 qualified investments and donations totaling \$14.0 million, compared to 87 investments and donations totaling \$3.8 million at the previous evaluation. The investments included four prior period investments totaling \$2.0 million. The level of performance in South Carolina represents 73.5 percent by number and 51.9 percent by dollar volume of the total bank-wide qualified investments and donations. Additionally, the total investments include seven statewide activities totaling \$7.7 million that benefitted the broader statewide area in South Carolina, which included the assessment areas. The following table details qualified investments made in South Carolina by purpose, year, and assessment area.

- In 2022, the bank invested \$1.0 million in an organization that aids with affordable housing to low- and moderate-income individuals throughout South Carolina, including the bank's assessment areas.
- In 2022, the bank purchased a \$1.5 million MBS, which provided affordable home loans for low- and moderate-income individuals in the Charleston and Columbia MSA assessment areas.

SERVICE TEST

The Service Test rating for this institution is High Satisfactory in South Carolina. Southern First Bank’s delivery systems are reasonably accessible to essentially all portions of the institution’s South Carolina assessment areas. The bank is a leader in providing community development services. Consistent performance in all of the assessment areas supports this conclusion.

Community Development Services

Southern First Bank is a leader in providing community development services in South Carolina. Bank employees provided 211 qualifying services totaling 2,377 hours throughout the South Carolina assessment areas. This performance represented 74.0 percent of the bank-wide community development services by number. In addition, this performance reflects a significant increase since the previous evaluation when the bank performed 35 community development services in South Carolina. Regarding this evaluation period, there are three services totaling 72 hours that benefitted the broader statewide area in South Carolina that includes the assessment areas. Additionally, community development services that benefitted the larger statewide area of South Carolina outside of the bank’s assessment areas totaled two activities for four hours and are included, as the bank met the community development service needs of its assessment areas. Total community development services equate to 8.8 services and 98.0 hours per branch per year. The following table details the community development services by assessment area and purpose during the evaluation period.

According to Standard Industrial Classification System, the top industries were services, non-classifiable establishments, and finance, insurance, and real estate. According to Moody’s Analytics, the top employers were Prisma Health, Michelin North America, Clemson University, Milliken and Company, and Bon Secours St. Francis Health System.

Competition

Competition in this assessment area is very high. According to FDIC Deposit Market Share data as of June 30, 2023, 35 FDIC-insured institutions operate 150 branches within this area. Of these institutions, Southern First Bank ranked 4th in total deposits with a market share of 9.9 percent. The top three financial institutions account for 39.4 percent.

There is a high level of competition for home mortgage loans among a large number of banks, credit unions, and non-depository mortgage lenders. In 2022, 575 lenders reported a total of 29,950 residential mortgage loans originated or purchased. Southern First Bank ranked 3rd with a market share of 3.3 percent. The top two home mortgage lenders, Rocket Mortgage and Truist Bank, accounted for 9.4 percent of total market share.

There is a high level of competition for small business loans among lenders in the assessment area. Aggregate data for 2022 indicates that 116 lenders reported 15,244 small business loans in the assessment area. Southern First Bank ranked 12th with a market share of 1.8 percent by total number of loans. The top three small business lenders, American Express National Bank, JPMorgan Chase Bank, N.A. and Bank of America, N.A., accounted for 44.0 percent of total market share.

Credit and Community Development Needs and Opportunities

Based on demographic and economic data, some conclusions regarding the credit needs of the assessment area can be derived. The high percentage of low- and moderate-income families at 34.9 percent and median housing value of \$211,453 compared to income of less than \$72,000 annually for low-and moderate-income families indicates a need for affordable housing. Furthermore, small business loans are needed as 90.9 percent of businesses have gross annual revenues of \$1.0 million or less, and 94.5 percent of the businesses operate with less than 10 employees. Opportunities exist for affordable housing and small business lending based on information received from demographic information.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE GREENVILLE MSA ASSESSMENT AREA

LENDING TEST

Southern First Bank's Lending Test performance in the Greenville MSA assessment area reflects good responsiveness to assessment area credit needs. The geographic distribution reflects adequate penetration throughout the assessment area, and the borrower profile reflects poor penetration. In addition, the bank originated a relatively high level of community development loans.

Geographic Distribution

The geographic distribution of home mortgage and small business loans reflects adequate penetration.

Home Mortgage

The geographic distribution of home mortgage loans reflects adequate penetration throughout the assessment area. The bank's performance in low-income census tracts was comparable to both aggregate and demographic data. The bank's 2022 performance in moderate-income census tracts was below aggregate and demographic data; however, in 2023, lending performance increased and was in line with demographic data.

Small Business

The geographic distribution of small business loans reflects adequate penetration throughout the assessment area. In 2021, the bank's performance in low-income census tracts was comparable to aggregate and demographic data. The bank did not originate any loans in low-income census tracts in 2022, which was below aggregate and demographic data. One loan was originated in 2023, which was below demographics. The percentage of businesses in low-income tracts for all three years indicated limited lending opportunities. The bank's performance in moderate-income census tracts was comparable to aggregate and demographic data.

Borrower Profile

The distribution of loans reflects poor penetration among individuals of different income levels and businesses of different sizes.

Home Mortgage

The distribution of home mortgage loans reflects poor penetration among borrowers of different income levels. Lending to low-income borrowers was below aggregate and demographic data even when considering the number of families living below the poverty. Lending to moderate-income borrowers was less than half of aggregate and demographic data.

Small Business

The distribution of small business loans reflects poor penetration among businesses of different sizes. Lending to businesses with gross annual revenues of \$1 million or less was significantly below aggregate and demographic data.

Community Development Loans

Southern First Bank made a relatively high level of community development loans in the Greenville MSA assessment area. The bank originated 19 community development loans totaling \$36.0 million, which almost doubles the amount originated at the previous evaluation of nine loans totaling \$18.3 million. This amount also represents 43.2 percent, by number, and 30.0 percent, by dollar volume, of total community development loans originated in South Carolina. The majority of loans supported revitalization and stabilization efforts. The following are examples of community development loans originated during the evaluation period.

- A \$2.1 million loan to a nonprofit organization focused on providing affording housing throughout the assessment area. The loan provided funds for a 40-unit complex allocated strictly for low-income senior citizens.
- A \$4.9 million loan to a finance an office park located in a low-income census tract and designated Opportunity Zone. The loan helps to retain and attract businesses to the geography, promoting revitalization or stabilization efforts in the area.
- A \$2.0 million loan to a nonprofit organization whose primary purpose is to provide food and shelter to low- and moderate-income individuals experiencing hardship, supporting community services.

INVESTMENT TEST

According to Moody's Analytics, the top industries were government, professional and business services, and leisure and hospitality services. The top employers were Joint Base Charleston, Medical University of South Carolina, Roper St. Francis Healthcare, The Boeing Company, and Trident Health System.

Competition

Competition in this assessment area is very high. According to FDIC Deposit Market Share data as of June 30, 2023, 35 FDIC-insured institutions operate 150 branches within this area. Of these institutions, Southern First Bank ranked 8th in total deposits with a market share of 2.8 percent. The top three financial institutions account for 46.4 percent.

There is a high level of competition for home mortgage loans among a large number of banks, credit unions, and non-depository mortgage lenders. In 2022, 745 lenders reported a total of 59,094 residential mortgage loans originated or purchased. Southern First Bank ranked 61st with a market share of 0.4 percent. The top three home mortgage lenders, Rocket Mortgage, SouthState Bank, N.A., and Vanderbilt Mortgage and Finance accounted for 9.6 percent of total market share.

There is a high level of competition for small business loans among lenders in the assessment area. Aggregate data for 2022 indicates that 128 lenders reported 24,943 small business loans in the assessment area. Southern First Bank ranked 18th with a market share of 0.7 percent by total number of loans. The top three small business lenders, American Express National Bank, JPMorgan Chase Bank, N.A., and Bank of America, N.A., accounted for 45.9 percent of total market share.

Community Contacts

As part of the evaluation process, examiners contact organizations active in the area to assist in identifying the credit needs of the assessment area. This information helps identify credit and community development needs and whether local financial institutions are responsive to those opportunities. Two community contacts within the Charleston MSA assessment were conducted. One contact from an economic development organization stated that business financing and affordable housing were needed. In addition, the contact stated that the interest rates are extremely high, and financial institutions could provide lower interest rates for businesses and housing needs. The other contact from a nonprofit organization stated that donations and sponsorships are needed for food insecurity for the low- and moderate-income and elderly population.

Credit and Community Development Needs and Opportunities

Based on demographic and economic data, as well as information gathered from a community contact, some conclusions regarding the credit needs of the assessment area can be derived. The high percentage of low- and moderate-income families at 39.3 percent and median housing value of \$313,553 compared to the income of less than \$82,000 annually for low- and moderate-income families indicates a need for affordable housing. One community contact also stated the need for affordable housing as interest rates and housing prices have risen sharply. Furthermore, small business loans are needed as 93.3 percent of businesses have gross annual revenues of \$1.0 million or less, 95.3 percent of the businesses operate with less than 10 employees, and the community contact stated many businesses struggle with obtaining cheaper financing options. Based on information received from community contact and demographic data, opportunities exist for affordable housing, small business lending, and community services.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE CHARLESTON MSA ASSESSMENT AREA

LENDING TEST

Southern First Bank's Lending Test performance in the Charleston MSA assessment area reflects good responsiveness to assessment area credit needs. The geographic distribution reflects adequate penetration throughout the assessment area, and the borrower profile reflects poor distribution. In addition, the bank originated a relatively high level of community development loans.

Geographic Distribution

The geographic distribution of home mortgage and small business loans reflects adequate penetration.

Home Mortgage

The geographic distribution of home mortgage loans reflects adequate penetration throughout the assessment area. The bank's performance in low-income census tracts was below demographic data but comparable to aggregate data. Examiners note that aggregate and demographic data indicate limited lending opportunities in low-income census tracts. The bank's performance in moderate-income census tracts was below aggregate and demographic data but is adequate considering the level of competition within the assessment area.

Small Business

The geographic distribution of small business loans reflects good penetration throughout the assessment area. The bank's performance in low-income census tracts was slightly below demographic data but comparable to aggregate data. The bank's performance in moderate-income census tracts was comparable to aggregate and demographic data. In 2023, performance increased and was well above demographic data.

Borrower Profile

The distribution of loans reflects poor penetration among individuals of different income levels and businesses of different sizes.

Home Mortgage

The distribution of home mortgage loans reflects poor penetration among borrowers of different income levels. Lending to low-income borrowers was below both aggregate and demographic data even when considering the number of families living below the poverty level. Lending to moderate-income borrowers was significantly below aggregate and demographic data.

Small Business

The distribution of small business loans reflects adequate penetration among businesses of different sizes. In 2021, the bank's performance was slightly below aggregate data and significantly below demographics. In 2022, lending to businesses with gross annual revenues of \$1 million or less was below aggregate data and significantly below demographic data. Performance increased in 2023

but remained below aggregate data. Given the level of competition, overall performance is adequate.

Community Development Loans

Southern First Bank made a relatively high level of community development loans in the Charleston MSA assessment area. Southern First Bank originated 17 community development loans totaling \$60.4 million, which is significantly greater than the prior evaluation originations of six loans totaling \$14.8 million. This amount represents 38.6 percent, by number, and 50.2 percent, by dollar volume, of total community development loans originated in South Carolina. The loans primarily supported economic development and revitalization or stabilization efforts. Below are examples of the community development loans originated during the evaluation period.

- A \$3.5 million loan to a nonprofit organization whose mission is to revitalize distressed neighborhoods. The loan is for the construction of a 20-unit affordable housing development, supporting affordable housing initiatives for low- and moderate-income individuals.
- A \$1.3 million loan for a business that purchased and renovated commercial property in a designated Opportunity Zone located in a low-income census tract. The loan encourages investment and growth in economically distressed areas, supporting revitalization or stabilization efforts in the area.
- A \$2.5 million loan to a medical facility that is located in a moderate-income geography. The facility provides access to medical services for low- and moderate-income individuals residing in the community, supporting revitalization or stabilization efforts in the area.

INVESTMENT TEST

Southern First Bank made a significant level of qualified community development investments and donations in the Charleston MSA assessment area; however, rarely in a leadership position.

Investment and Grant Activity

The bank made a significant level of qualified community development investments and donations, in the assessment area. The bank made 63 investments and donations totaling \$3.6 million, a significant increase compared to eight donations totaling \$17,000 at the previous evaluation. This level of performance represents 21.9 percent by number and 25.9 percent by dollar volume of South Carolina's qualified investments and donations. In addition, two statewide investments and one bank-wide investment are included in the Charleston MSA assessment area. Qualified investments included two municipal bonds totaling \$2.1 million, one MBS totaling \$1.4 million, and 60 donations totaling \$102,244. The following are examples of qualified investments that benefitted the assessment area.

- In 2022, the bank purchased a \$1.4 million MBS, which provided five affordable home loans for low- and moderate-income individuals.
- From 2021 to 2023, the bank donated over \$10,600 to a nonprofit organization that provided social services support to low- and moderate-income individuals and at-risk children,

supporting community services.

- In 2024, the bank donated \$1,000 to an organization that created and rehabilitated affordable housing for low- and moderate-income individuals.

SERVICE TEST

The bank is a leader in providing community development services.

Community Development Services

Southern First Bank is a leader in providing community development services in this assessment area. During the evaluation period, bank records show that employees in the assessment area participated in 41 community development services totaling 397 hours. This performance represents 19.4 percent by number and 16.7 percent by hours of all activities in the state. This performance reflects a significant increase since the previous evaluation when the bank performed six community development services in the Charleston MSA assessment area, which reflects the bank's responsiveness to community needs in the assessment area. Community development services equate to 4.2 services and 43.1 hours per branch per year. The following are examples of community development services provided in the assessment area.

- From 2022 through 2024, a bank representative served on the Board, including Treasurer and Chairman, for an economic development organization that assists in attracting new businesses, site selections, and workforce training.
- In 2022 through 2024, a bank representative served on the Board for a nonprofit organization that bridges the gap between funding provided for basic education and resources required for the students. Over 50 percent of the schools in the district have more than 50 percent of students qualifying for free or reduced lunch, supporting community services to low- and moderate-income individuals.
- In 2022 through 2024, bank representatives provided 24 instances totaling 87 hours of financial literacy to students from four schools where more than 50 percent of students qualify for free or reduced lunch and served on an organization that provides services to low- and moderate individuals, supporting community services.

NORTH CAROLINA

CRA RATING FOR NORTH CAROLINA: SATISFACTORY

The Lending Test is rated: Low Satisfactory

The Investment Test is rated: High Satisfactory

The Service Test is rated: High Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN NORTH CAROLINA

The evaluation of the North Carolina performance considered the operations of Southern First Bank in three assessment areas, which are detailed in the Description of Assessment Areas. The bank operates three, or 25.0 percent, of its total branch offices in North Carolina. North Carolina accounts for 8.8 percent of the bank-wide deposits. Overall, Southern First Bank ranks 22nd in the state in deposit market share at 0.1 percent. Competitor institutions in the North Carolina assessment areas include Bank of America, N.A., Truist Bank, and First-Citizens Bank and Trust Company.

SCOPE OF EVALUATION – NORTH CAROLINA

Based on the number of loans and branches, as well as dollar volume of deposits, examiners conducted full-scope reviews of the bank's performance in the Greensboro MSA and Raleigh MSA assessment areas; the Charlotte MSA assessment area received a limited-scope review.

CONCLUSIONS ON PERFORMANCE CRITERIA IN NORTH CAROLINA

LENDING TEST

The Lending Test rating for North Carolina is Low Satisfactory. Lending levels reflect good responsiveness to the assessment areas' credit needs. The geographic distribution reflects adequate

penetration throughout the assessment areas. The distribution of borrowers reflects poor penetration to retail customers of different income levels and businesses of different sizes. In addition, the bank made a relatively high level of community development loans. Performance is consistent among the assessment areas within the rated area.

Lending Activity

Lending levels reflect good responsiveness to the assessment areas' credit needs. Southern First Bank's lending has increased by total number and dollar volume of loans in North Carolina since the prior evaluation. During the review period, Southern First Bank originated 384 home mortgage loans totaling \$154.6 million and 237 small business loans totaling \$83.9 million. Limited lending opportunities based on the relatively low percentages of owner-occupied housing units and strong competition in the low- and moderate-income census tracts in the assessment areas were factors considered in the analysis of the bank's performance, as applicable. Southern First Bank operates in a highly competitive market for both home mortgages and small business lending.

Performance in this criterion is generally consistent throughout in each assessment area. Therefore, the Lending Test conclusions for each full-scope review assessment area omit further discussion of this performance.

Geographic Distribution

The overall geographic distribution of home mortgage and small business loans is adequate. Performance in all assessment areas is consistent with the rated area performance.

Borrower Profile

The overall borrower distribution of home mortgage and small business loans is poor. Performance in all assessment areas is consistent with the rated area performance.

Community Development Loans

Southern First Bank has a relatively high level of community development loans in North Carolina. During this evaluation period, the bank originated 34 community development loans totaling \$95.6 million, this is a significant increase from the prior evaluation of five loans totaling \$10.4 million. This performance represents 39.1 percent, by number, and 36.6 percent, by dollar volume, of total bank-wide community development loans. Additionally, 12 loans totaling \$37.1 million were originated outside of the assessment areas but in a broader statewide area. Since the bank has been responsive to community development needs and opportunities inside its assessment areas, examiners gave consideration for broader statewide lending. Consistent performance throughout all assessment areas supports this conclusion. The following table illustrates the community development loans by assessment area.

The following are examples of the statewide activities in North Carolina.

- A \$17.0 million loan for the construction of a new restaurant in a moderate-income area, which will bring jobs for low- and moderate-income individuals, supporting revitalization and stabilization efforts.
- A \$1.8 million loan to finance the purchase of an apartment complex. The loan provided a 28-unit complex with monthly rents below fair market rents, supporting affordable housing for low- and moderate-income individuals.
- A \$1.2 million loan to relocate an urgent care medical facility to a low-income census tract with minimal medical services, supporting revitalization or stabilization efforts.

INVESTMENT TEST

The Investment Test performance is rated High Satisfactory. The institution has a significant level of qualified community development investments and donations; however, rarely in a leadership position, particularly those that are not routinely provided by private investors. Performance in the Raleigh MSA and Charlotte MSA assessment areas supports the rated area conclusion. Performance in the Greensboro MSA for one factor was below the rated area conclusion, but did not materially impact conclusions.

Investment and Grant Activity

Southern First Bank has a significant level of qualified community development investments and donations in North Carolina. During the evaluation period, the bank made or maintained 74 qualified investments and donations totaling \$7.0 million, compared to 12 investments and donations totaling \$2.7 million at the previous evaluation. The level of performance in North Carolina represents 18.9 percent by number and 25.9 percent by dollar volume of the total bank-wide qualified investments and donations. Two investments totaling \$500,000 were made to minority depository institutions that have branches throughout North Carolina, including in the bank's assessment areas. The following table details the bank's qualified investments made in North Carolina by purpose and assessment area.

According to Standard Industrial Classification System, the top industries in the Greensboro MSA assessment area were services, non-classifiable establishments, and finance, insurance, and real estate. According to Moody’s Analytics, the top employers were Cone Health, LabCorp Incorporated, The Volvo Group, United Healthcare, and University of North Carolina.

Competition

Competition in this assessment area is very high. According to FDIC Deposit Market Share data as of June 30, 2023, 20 FDIC-insured institutions operate 102 branches within this area. Of these institutions, Southern First Bank ranked 15th in total deposits with a market share of 0.7 percent. The top three financial institutions account for 60.2 percent.

There is a high level of competition for home mortgage loans among a large number of banks, credit unions, and non-depository mortgage lenders. In 2022, 555 lenders reported a total of 25,993 residential mortgage loans originated or purchased. Southern First Bank ranked 64th with a market share of 0.3 percent. The top three home mortgage lenders, State Employees Credit Union, Truliant Federal Credit Union, and Rocket Mortgage, accounted for 23.8 percent of total market share.

There is a high level of competition for small business loans among lenders in the assessment area. Aggregate data for 2022 indicates that 115 lenders reported 14,505 small business loans in the assessment area. Southern First Bank ranked 26th with a market share of 0.3 percent by total number of loans. The top three small business lenders, American Express National Bank, Bank of America, N.A., and JPMorgan Chase Bank, N.A., accounted for 40.7 percent of total market share.

Community Contact

Examiners used an existing community contact that was recently completed with an economic development organization that serves the Greensboro MSA assessment area. The contact identified a need for more affordable multifamily properties. The contact indicated the area is thriving with younger professionals who are looking for affordable rents. The contact also indicated a need for more small businesses in the area.

Credit and Community Development Needs and Opportunities

Based on demographic and economic data, as well as information gathered from a community contact, some conclusions regarding the credit needs of the assessment area can be derived. The high percentage of low- and moderate-income families at 37.1 percent and median housing value of \$171,355 compared to the income of less than \$66,000 annually for low-and moderate-income families indicates a need for affordable housing. Furthermore, small business loans are needed as 90.8 percent of businesses have gross annual revenues of \$1.0 million or less, and 93.6 percent of the businesses operate with less than 10 employees. Opportunities exist for affordable housing and small business lending based on information received from the community contact and demographic information.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE GREENSBORO MSA ASSESSMENT AREA

LENDING TEST

Southern First Bank's Lending Test performance in the Greensboro MSA assessment area reflects good responsiveness to assessment area credit needs. The geographic distribution reflects adequate penetration throughout the assessment area, and the borrower profile reflects poor distribution. In addition, the bank originated a relatively high level of community development loans.

Geographic Distribution

The geographic distribution of home mortgage and small business loans reflects adequate penetration.

Home Mortgage

The geographic distribution of home mortgage loans reflects adequate penetration throughout the assessment area. The bank's performance in low-income census tracts was below both aggregate and demographic data. However, given the level of competition and demand, performance is adequate. The bank's performance in moderate-income census tracts was comparable to both aggregate and demographic data.

Small Business

The geographic distribution of small business loans reflects adequate penetration throughout the assessment area. The bank's 2022 performance in low-income census tracts was comparable to both aggregate and demographic data. In 2023, the bank's performance in low-income census tracts increased and significantly exceeded demographic data. The bank's performance in moderate-income census tracts was below aggregate and demographic data, but performance is adequate considering competition levels.

Borrower Profile

The distribution of loans reflects poor penetration among individuals of different income levels and businesses of different sizes.

Home Mortgage

The distribution of home mortgage loans reflects poor penetration among borrowers of different income levels. The bank did not originate any loans to low-income borrowers. Lending to moderate-income borrowers was significantly below aggregate and demographic data.

Small Business

The distribution of small business loans reflects adequate penetration among businesses of different sizes. In 2022, lending to businesses with gross annual revenues of \$1 million or less was slightly below aggregate and significantly below demographic data. In 2023, lending to businesses increased; however, remained below demographic data.

Community Development Loans

Southern First Bank made a relatively high level of community development loans in the Greensboro MSA assessment area. The bank originated 11 community development loans totaling \$21.9 million, which more than triples the prior evaluation of three loans totaling \$5.8 million. Additionally, this amount represents 32.4 percent, by number, and 22.9 percent, by dollar volume, of total community development loans originated in North Carolina. The majority of the community development loans supported revitalization and stabilization. Below are examples of community development loans originated during the evaluation period.

- Two loans totaling \$6.4 million to finance commercial property that houses a medical facility. The medical facility manages a foundation that raises funds and focuses on programs that target the health care needs for the medically underserved within the community, including grade school students, supporting community services for low- and moderate-income individuals.
- A \$1.3 million loan for a new distribution center located in a low-income census tract. The loan supports growth in the low-income census tract and will create twelve permanent low- and moderate-income jobs, promoting revitalization or stabilization efforts in the area.
- A \$1.3 million loan to construct a convenience store in a moderate-income geography. The business promotes growth in the moderate-income census tract by attracting new businesses and residents to the area, promoting revitalization or stabilization efforts in the area.

INVESTMENT TEST

Southern First Bank made an adequate level of qualified community development investments and donations in the Greensboro MSA assessment area; however, occasionally in a leadership position.

Investment and Grant Activity

The bank has an adequate level of qualified community development investments and donations, in the assessment area, rarely in a leadership position. The bank made 27 investments and donations totaling \$921,568, compared to one investment, which totaled \$1.1 million at the previous evaluation. This level of performance represents 36.5 percent by number and 13.2 percent by dollar volume of North Carolina's qualified investments and donations. Qualified investments included one prior-period MBS with a current book value of \$898,095 and 26 donations totaling \$23,474. The following are examples of qualified investments that benefitted the Greensboro MSA assessment area.

- A prior period MBS with a current book value of \$898,095, provided seven affordable home loans for low- and moderate-income individuals.
- From 2021 to 2023, the bank provided seven donations totaling \$10,175 to a nonprofit agency that provided social services including temporary shelter, food, clothing and other services to homeless and at-risk low- and moderate-income individuals, supporting community services.
- From 2021 to 2023, the bank provided four donations totaling \$5,200 to a nonprofit agency that provided free medical care to area residents living below poverty level, supporting community services.

SERVICE TEST

The bank is a leader in providing community development services.

Community Development Services

Southern First Bank is a leader in providing community development services in this assessment area. During the evaluation period, bank records show that employees in the assessment area participated in 11 community development services totaling 181 hours. This performance represents 23.4 percent by number and 19.8 percent by hours of all activities in the state. This performance reflects an increase since the previous evaluation when the bank performed one community development service in the Greensboro MSA assessment area. This level of activity reflects the bank's responsiveness to community needs in the assessment area. Community development services equate to 3.7 services and 60.3 hours per branch per year. The following are examples of community development services provided in the assessment area.

- In 2021 through 2023, a bank representative served on the Board for a nonprofit community health agency that provides home health care, free wellness clinic, as well as community outreach to low- and moderate-income individuals, supporting community services.
- In 2022 and 2023, a bank representative served on the Board, as well as Treasurer in 2023, for a nonprofit organization that connects people experiencing homelessness to safe, healthy, and sustainable housing and appropriate resources, supporting community services for low- and moderate-income individuals.

- In 2021 through 2024, a bank representative served on the Board, as well as Treasurer in 2024, of a medical clinic that serves uninsured and underinsured individuals, supporting community services.

RALEIGH MSA ASSESSEMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE RALEIGH MSA ASSESSEMENT AREA

Southern First Bank continues to delineate Wake County, in its entirety, as the sole county in the Raleigh MSA assessment area. Wake County is one of three counties in the Raleigh MSA. The bank operates one branch, or 33.3 percent, of its North Carolina branch offices in the Raleigh MSA assessment area. The assessment area represents 35.1 percent of the rated area loans and 49.9 percent of the rated area deposits. The top employers were WakeMed Health and Hospitals, North Carolina State University, IBM Corporation, UNC Rex Healthcare, and Cisco Systems, according to Moody’s Analytics.

Competition

Competition in this assessment area is very high. According to FDIC Deposit Market Share data as of June 30, 2023, 34 FDIC-insured institutions operate 236 branches within this area. Of these institutions, Southern First Bank ranked 18th in total deposits with a market share of 0.2 percent. The top three financial institutions account for 77.2 percent.

There is a high level of competition for home mortgage loans among several banks, credit unions, and non-depository mortgage lenders. In 2022, 727 lenders reported a total of 76,352 residential mortgage loans originated or purchased. Southern First Bank ranked 155th out of this group of lenders, with a market share of 0.1 percent. The top three home mortgage lenders, State Employees Credit Union, Coastal Federal Credit Union, and Truist Bank, accounted for 21.7 percent of total market share.

There is a high level of competition for small business loans among lenders in the assessment area. Aggregate data for 2022 indicates that 141 lenders reported 36,554 small business loans in the assessment area. Southern First Bank ranked 41st with a market share of 0.1 percent by total number of loans. The top three small business lenders, American Express National Bank, JPMorgan Chase Bank, N.A., and Bank of America, N.A., accounted for 48.4 percent of total market share.

Community Contacts

Examiners used two existing community contacts that were recently completed with nonprofit organizations that serve the Raleigh MSA assessment area. Both contacts indicated a need for credit financing. One contact identified the need for short-term capital, specifically for small businesses. The other contact identified a need for credit availability for affordable housing and homeowners due to rising home costs. Financial literacy was identified as a need as well.

Credit and Community Development Needs and Opportunities

Based on demographic and economic data, as well as information gathered from the community contacts, some conclusions regarding the credit needs of the assessment area can be derived. The high percentage of low- and moderate-income families at 35.2 percent and median housing value of \$309,723 compared to the income of less than \$97,000 annually for low-and moderate-income families indicates a need for affordable housing. The community contact also stated the need for affordable housing due to rising costs. Furthermore, small business loans are needed as 92.4 percent of businesses have gross annual revenues of \$1.0 million or less, and 94.6 percent of the businesses operate with less than 10 employees. Opportunities exist for affordable housing, small business lending, and community services for low- and moderate-income individuals based on information received from the community contact and demographic information.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE RALEIGH MSA ASSESSMENT AREA

LENDING TEST

According to Standard Industrial Classification System, the top industries in the Atlanta MSA assessment area were services, non-classifiable establishments, and finance, insurance, and real

estate. According to Moody's Analytics, the top employers according to Moody's Analytics were Delta Airlines Incorporated, Emory University and Emory Healthcare, The Home Depot Incorporated, Northside Hospital, and Piedmont Healthcare.

Competition

Competition in this assessment area is very high. According to FDIC Deposit Market Share data as of June 30, 2023, 34 FDIC-insured institutions operate 236 branches within this area. Of these institutions, Southern First Bank ranked 20th in total deposits with a market share of 0.3 percent. The top three financial institutions account for 50.9 percent.

There is a high level of competition for home mortgage loans among a large number of banks, credit unions, and non-depository mortgage lenders. In 2022, 761 lenders reported a total of 62,768 residential mortgage loans originated or purchased. Southern First Bank ranked 86th out of this group of lenders, with a market share of 0.2 percent. The top three home mortgage lenders, Rocket Mortgage, Truist Bank, and Bank of America, N.A., accounted for 13.0 percent of total market share.

There is a high level of competition for small business loans among lenders in the assessment area. Aggregate data for 2022 indicates that 168 lenders reported 57,240 small business loans in the assessment area. Southern First Bank ranked 56th with a market share of 0.1 percent by total number of loans. The top three small business lenders, American Express National Bank, JPMorgan Chase Bank, N.A., and Bank of America, N.A., accounted for 60.2 percent of total market share.

Community Contact

A community contact from a nonprofit organization within the Atlanta MSA assessment area was conducted. The contact stated that donations to provide food to low- and moderate-income and elderly population is a need. The contact further stated that volunteers are needed for the organization to assist with supporting the organizations mission to improve the health and quality of life of the individuals that are served.

Credit and Community Development Needs and Opportunities

Based on demographic and economic data, as well as information gathered from a community contact, some conclusions regarding the credit needs of the assessment area can be derived. The high percentage of low- and moderate-income families at 35.2 percent and median housing value of \$328,630 compared to the income of less than \$85,000 annually for low- and moderate-income families indicates a need for affordable housing. Furthermore, small business loans are needed as 94.1 percent of businesses have gross annual revenues of \$1.0 million or less, and 95.4 percent of the businesses operate with less than 10 employees. Opportunities exist for affordable housing, small business lending, and community development activities for low- and moderate-income individuals based on information received from demographic information.

CONCLUSIONS ON PERFORMANCE CRITERIA IN GEORGIA

LENDING TEST

The Lending Test for Georgia is Low Satisfactory. Lending levels reflect good responsiveness to assessment area credit needs. The geographic distribution reflects adequate penetration throughout the assessment area, and the borrower profile reflects poor distribution. In addition, the bank originated a relatively high level of community development loans.

Lending Activity

Lending levels reflect good responsiveness to the assessment area's credit needs. Southern First Bank's lending has increased by total number and dollar volume of loans in Georgia since the prior evaluation. During the review period, Southern First Bank originated 338 home mortgage loans totaling \$198.4 million and 90 small business loans totaling \$25.0 million. Limited lending opportunities based on the relatively low percentages of owner-occupied housing units and strong competition in the low- and moderate-income census tracts in the assessment areas were factors considered in the analysis of the bank's performance, as applicable. Southern First Bank operates in a highly competitive market for both home mortgages and small business lending.

Geographic Distribution

The geographic distribution of home mortgage and small business loans reflects adequate penetration.

Home Mortgage

The geographic distribution of home mortgage loans reflects adequate penetration throughout the assessment area. The bank's 2022 performance in low-income census tracts was below aggregate and demographic data. In 2023, performance in low-income census tracts increased and more than doubled demographic data. The bank's 2022 performance in moderate-income census tracts was significantly below aggregate and demographic data. However, 2023 performance increased and exceeded demographic data.

Small Business

The geographic distribution of small business loans reflects poor penetration throughout the assessment area. The bank did not originate any loans in low-income census tracts and only one loan in moderate-income census tracts each year. This performance was significantly below aggregate and demographic data.

Borrower Profile

The distribution of loans reflects poor penetration among individuals of different income levels and businesses of different sizes.

Home Mortgage

The distribution of home mortgage loans reflects poor penetration among borrowers of different income levels. The bank’s performance to low-income borrowers was below aggregate and significantly below demographic data even when considering the number of families living below the poverty level. Lending to moderate-income borrowers was significantly below aggregate and demographic data.

Small Business

The distribution of small business loans reflects adequate penetration among businesses of different sizes. In 2022, lending to businesses with gross annual revenues of \$1 million or less was in line with aggregate data but below demographic data. In 2023, lending performance declined and remained below demographic data. Given the level of competition in the area, overall performance is adequate.

Community Development Loans

Southern First Bank made a relatively high level of community development loans in Georgia. During this evaluation period, the bank originated nine community development loans totaling \$45.4 million, which is a significant increase since prior evaluation of one loan totaling \$1.1 million. This performance represents 10.3 percent, by number, and 17.4 percent, by dollar volume, of total bank-wide community development loans. Six loans totaling \$34.1 million were originated outside of the assessment area but in a broader statewide area. Since the bank has been responsive to community development needs and opportunities inside its assessment areas, examiners gave consideration for broader statewide lending. The following table illustrates the community development loans.

Community Development Lending by Rated Area – Georgia

Community Development Services

Southern First Bank is a leader in providing community development services in Georgia. Bank employees provided 27 qualifying services totaling 310 hours throughout Georgia. This performance represents 9.5 percent of the bank-wide community development services by number. In addition, this performance reflects a significant increase since the previous evaluation when the bank performed three community development services in Georgia. Community development services that benefitted the larger statewide area of Georgia, totaled five activities for 35 hours, and are included, as the bank met the community development service needs of its assessment area.

Total community development services equate to 9.0 services and 103.3 hours per branch per year. The following are examples of community development services provided in the assessment area.

- In 2021 through 2024, a bank representative served as Auction Chairperson for a nonprofit that assisted low- and moderate-income women by providing a network of support, professional attire and development tools to help women enter the workforce, supporting community services.
- In 2021 through 2024, a bank representative served on the fundraising committee, as well as on the Board in 2022 through 2024, for a nonprofit health facility where 60 percent of the patients are on PeachCare for Kids, Medicaid, or uninsured, supporting community services for low- and moderate-income individuals.
- In 2023, bank representatives provided six instances totaling 42 hours of financial literacy to students from a school in the assessment area where more than 50 percent of students qualify for free or reduced lunch, supporting community services for low- and moderate-income individuals.

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

- 1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
- 2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
 - i. The proportion of the bank's lending in the bank's assessment area(s);
 - ii. The dispersion of lending in the bank's assessment areas(s); and
 - iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
- 3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
 - i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
 - ii. Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;
 - iii. Small business and small farm loans by loan amount at origination; and
 - iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
- 4) The bank's community development lending, including the number and amount of community development loans, and their complexity and innovativeness; and
- 5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

- 1) The dollar amount of qualified investments;
- 2) The innovativeness or complexity of qualified investments;
- 3) The responsiveness of qualified investments to available opportunities; and
- 4) The degree to which qualified investments are not routinely provided by private investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

- 1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;
- 2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
- 3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
- 4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

- 1) The extent to which the bank provides community development services; and
- 2) The innovativeness and responsiveness of community development services.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or donation that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
